Summary

Passionate problem solver looking for an opportunity in programming and blockchain development to upgrade my career and growth. I am a master's graduate in the field of information technology. Moreover, I have spent over 366 hours taking out certifications in the fields of blockchain and programming. You can check out the achievements section of the website as well as the delivered products. I am motivated by the desire to solve issues in blockchain infrastructure and decentralized applications using the skills I have acquired during my development journey. My commitment to critical thinking about my work and doing research and development gives me an immense set of skills, making it necessary for the vitality of the company. I am ready to work either in person at the office or remotely. My level of English is almost CEFR C1 and my native language is Persian. Updated infographic (cutt.ly/armanriazi-resume)

I hope to work with you, but if it is not possible at any rate, I recommend you not lose future opportunities for service-oriented work. (armanriazi.github.io/services)
