## Expertise (Programming, Blockchain, Rust)

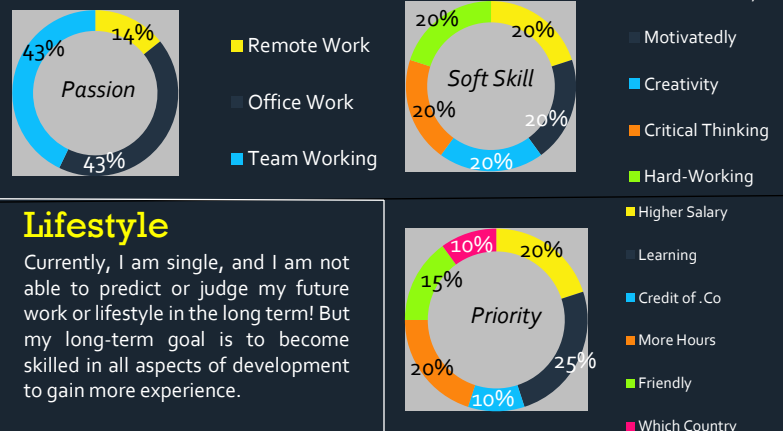

## Achievements

The inclusion of the "Rate" column as a part of the next page indicates that it was evaluated by me based on degree of difficulty or needing more time. In addition, it is based on parameters like being close to the standard, task assessment, high-tech, and on-demand niche target markets. So a higher rate and the fact that I have done important projects on the [website\(ImportantProjects\)](#) indicate I have completed the "achievements" section.

## Short Tips

- Motivation  
When I was a teen I started the web programming through FrontPage on wing5. After that, I worked on Dreamweaver on winxp...
- Master Dissertation Title  
"Using ACO Algorithm to Improve Performance for Container-based Scientific Workflows"
- Keep in touch

I obtained some certificates as proof of my prior experience. I am a firm believer in documentation, books, and receiving a certificate at the end. The best resource for any kind of learning is the official documentation websites.
