Updated CV. LTS

Short Tips

- CV speaking to you !
I delegated the sending of my resume to someone, who is applying for this job. It would be possible that the resume does not fit your requirements in more detail, so
- Keep in touch with me
Please visit the website before contact with me. Thanks.

Motivation

When I was a teen I started the web programming through FrontPage on Win95. After that, I worked on Dreamweaver on Winxp. Passionate problem solver looking for an opportunity in Rust-Lang and blockchain development to upgrade my career and growth. I am motivated by the desire to solve issues in blockchain infrastructure and dapps using the skills I have acquired during my development journey. My commitment to critical thinking and doing research gives me an immense set of skills, making it easier for me to deal with your challenges. Programming, smart contracts, and blockchain are somewhat things I am passionate about, and I hope to get to discover more about the blockchain that is related to the DEFAI, META, IOT, Cloud Computing, etc.

I obtained some certificates as proof of my prior experience. I am a firm believer in documentation, books, and receiving a certificate at the end. The best resource for any kind of learning is the official documentation websites.
