To:

Dear HR/Employer,

Greetings!

I'm writing to express my interest in the position of ………….. Software, and I am reaching out to express my keen in your company.

I thrive on ensuring that projects operate smoothly from beginning to end since I have an eye for details and a natural tendency toward organizing. I'm excited about the chance to put my skills to use.

Based on the published job description and requirements:

It sounds great. The education, certificates, and GitHub page show I am fit for this position as well as active in your work scope. I have worked on ………... I do not have ………….…...… skills but I think when my position is specified by you, I will have to learn about them more. I am really passionate about Web 3.0. Based on the CV qualifications, I am sure to reach any kind of new stack/customized.

For any kind of information, you can search with jargon, programming language, or stack names on my personal website to find delivered/related works. I also have some certificates about a part of your work that you can see in the section of achievements on my personal website.

I am particularly interested in your company as a type of office or remote working. No doubt, my current major and future job are related to blockchain and cutting-edge technologies. I also have mind-dexterity. Based on my resume and evidence (ref.to the website, and for the next steps I can provide more information for verification), I take a scientific approach to all my decisions, considering practical or hands-on skills.

I fit this post perfectly. If you have any questions, want clarifications, or want to discuss this further, please call or email me at your earliest convenience.

Thank you for your time and consideration.

Sincerely,

Arman Riazi
